

SITE INFORMATION

In the case of an emergency always contact the Emergency Services first.

<p>999 Emergency</p>	<p>111 national non-emergency medical number</p>
<p>112 Emergency number. 112 will work on any mobile phone anywhere in the world.</p>	<p>101 non-emergency number for the police</p>

The phone signal is not good in this area for most service providers. Please familiarise yourselves with the location of the phone box (near the bus stop by the entrance to National Trust Car Park on the road.)

If you need to contact a member of the committee in the case of a site emergency, the following members of the Campsite Committee will be able to help.

Mrs Pat Brandwood (Chairman)	Home: 01772 315396 Mobile: 07773 528602
Mrs Sue Western (Site Management)	Home: 01524 35170 Mobile: 07980 184552
Mrs Brenda Mills (Treasurer)	Home: 01524 822984 Mobile: 07790819690
Mrs Tina Stott (Committee member)	Home: 01524 733545 Mobile: 07765513204

ELECTRICITY

The electric meters are behind the door.
Please use old £1 coins or £2 coins.

If electric fails **please check first that there is credit on the meter.** The meter has 3 trip switches which are automatic.

EQUIPMENT

This will be checked with you on arrival and departure. Please familiarise yourselves with where the equipment is stored. Refer to photos on wall.

There is a fridge/freezer in each hut. This will be switched on when you arrive.

Please make sure that this is switched off, emptied and cleaned before departure.

Please leave both doors open.

KEYS

The hut keys will be given to you on arrival for main door, washroom and toilets. These are on a wooden key fob and hung on a hook on the noticeboard.

If both sides of the camp hut are in use, we ask that the person(s) in charge of the camps liaise with each other for use of showers and drying room. A separate set of keys are required for these.

(Showers are powered by the electricity on Pepperpot site so a donation towards costs would be helpful.)

WATER, TOILETS, WASHROOMS

Our water is metered and we have a septic tank for drainage. We are not on a main drain.

Please be aware at all times that no water is wasted. Running taps is costly. i.e. don't leave running tap whilst cleaning teeth... Please use sparingly. Check washrooms regularly to make sure that taps are not left on.

PLEASE DO NOT WASTE WATER
Make sure taps are turned off properly after use - Thank you.

Field taps are push button and buckets/containers should be underneath whilst water is coming out. Please do not use for brushing teeth or filling personal water bottles. The tap has a timed limit and cannot be stopped once started.

Flushing toilets through the night can be noisy and unless necessary need not be flushed. SILVER SAPLING mantra for use of toilet paper is: **TWO FOR A WEE AND FOUR FOR A POO**. Please advise the campers to use sparingly.

Please DO NOT dispose of sanitary pads, tampons or panty liners. Use bins provided which should be lined at start of camp. Sanitary rubbish can be burnt on fires at the end of camp. The bins must be emptied and cleaned.

Please report any leaks or blockages to one of the emergency contacts. If this is not an emergency, please inform guider checking you out of any problems.

GAS and HOT WATER

The gas boiler will be switched on when you arrive. This will enable warm/hot water to be accessible through washroom hot taps and will provide warm/hot water in the showers and outside sinks.

RUBBISH/RECYLING

Please make sure that your rubbish is sorted so that as much as possible can be recycled. There are two green boxes on each site for disposing of glass, plastic, tins, paper and cardboard. See the notices in huts on noticeboards.

The Council refuse bins are in the area near the main gate.

Small blue wheelie bin

Instructions on bin ask us NOT TO BAG any waste in this bin except shredded paper. The items to put in here include:

Tins / Cans (to be rinsed out and flattened) Cardboard (flattened), Papers of any kind.

No Glass - please keep separate in green bins, if possible please take home and recycle in your own bins, however these can be taken to recycling centre for you, if a request to guider booking in or out is agreeable. Leave green bin by other bins by gate (entrance) to field.

Large wheelie bin

All other rubbish should be bagged for this bin and lid closed.

Please make sure that your camp does a 'litter sweep' of the field to pick up any litter off the field.

Please ensure that this is done thoroughly as we have sheep grazing the field when not in use and some rubbish could harm wildlife as well.

ACTIVITY EQUIPMENT

There is a separate folder detailing the equipment and safety rules.

If you have booked this equipment please inform guider booking you in so that the hut keys can be handed to you for the duration of your camp.

Any damages and breakages must be logged and given to the checking out guider.

Some of the equipment -

Plus lots of others...

SHOP

We sell camp site badges which are in the boiler/drying room - the guider checking you in will show you where. There is a petty cash box and is left for you to manage on a trust basis.

GATES AND ACCESS TO SITE

Please always follow the country code.

DO NOT CLIMB OVER THE WALLS surrounding the campsite. They are drystone and are very old. There is a top wire (barbed) and could be dangerous if climbing over the wall is tried.

We advise that gates are closed to the campsite at all times especially during the night.

FIRES

There is a communal woodpile for the use all sites.

If you are using wood to cook with then please make sure that you replenish the woodpile before you leave, or on a daily basis to make sure that all camps have enough.

The woods surrounding the site provide opportunities for a good supply of wood. The National Trust give us permission to collect fallen branches and other wood on the ground. Etc.

Altar fires are provided for your cooking fires. Do not light fires on the grass or at the back of the hut and make sure these are well away from the hut and tents. Make sure that buckets of water are available by the fire. Metal buckets are available in the hut.

If you wish to have a campfire away from the camping field there is an area behind the huts and up the hill where there is a raised firebase. The fire should be put out before leaving that area and certainly before going to bed. Again a bucket of water should be taken to this area when having a fire.

Please clean and tidy this area before end of camp. Ash/charcoal should be completely dowsed and no embers left burning. Empty ash collected in metal bucket in the long grass behind the campfire near the wall. Note - tin foil does not burn and should be binned.

Metal buckets Available in the huts.
